CONTENTS OF VOLUME 350

May 1984

CAMARGO L.A.A., MENANI J.V., SAAD William A. & SAAD Wilson A. Interaction between areas of the central nervous system in the control of water intake and arterial pressure in rats. 1

ENRIGHT J.T. Changes in vergence mediated by saccades. 9

ARMSTRONG D.M. & DREW T. Topographical localization in the motor cortex of the cat for somatic afferent responses and evoked movements. 33

BUÑO JR W., BUSTAMANTE J. & FUENTES J. White noise analysis of pace-maker–response interactions and non-linearities in slowly adapting crayfish stretch receptor. 55

GOGAN P., GUSTAFSSON B., JANKOWSKA E. & TYC-DUMONT S. On re-excitation of feline motoneurones: its mechanism and consequences. 81

KING B.F. & SZURSZEWSKI J.H. Mechanoreceptor pathways from the distal colon to the autonomic nervous system in the guinea-pig. 93

BUCHEGGER Andrea, NEMETH Patti M., PETTE Dirk & REICHMANN Heinz Effects of chronic stimulation on the metabolic heterogeneity of the fibre population in rabbit tibialis anterior muscle. 109

DYHRE-POULSEN Poul & LAURSEN Arne Mosfeldt Programmed electromyographic activity and negative incremental muscle stiffness in monkeys jumping downward. 121

BAROIN Anne, GARCIA-ROMEU Federico, LAMARRE Thomas & MOTAIS René Hormone-induced co-transport with specific pharmacological properties in erythrocytes of rainbow trout, *Salmo gairdneri*. 137

THOMAS M.V. Voltage-clamp analysis of a calcium-mediated potassium conductance in cockroach (*Periplaneta americana*) central neurones. 159

FINDLAY Ian A patch-clamp study of potassium channels and whole-cell currents in acinar cells of the mouse lacrimal gland. 179

ARMITAGE G., HARRIS Ruth B.S., HERVEY G.R. & TOBIN G. The relationship between energy expenditure and environmental temperature in congenitally obese and non-obese Zucker rats. 197

ANDERSSON P-O., BLOOM S.R. & MELLANDER S. Haemodynamics of pelvic nerve induced penile erection in the dog: possible mediation by vasoactive intestinal polypeptide. 209

KIRKWOOD P.A., SEARS T.A. & WESTGAARD R.H. Restoration of function in external intercostal motoneurones of the cat following partial central deafferentation. 225

KITAZAWA T., SOMLYO A.P. & SOMLYO Avril V. The effects of valinomycin on ion movements across the sarcoplasmic reticulum in frog muscle. 253

MILEDI R., REISER G. & UCHITEL O.D. Characteristics of membrane channels induced by acetylcholine at frog muscle–tendon junctions. 269

MILEDI R. & UCHITEL O.D. A study of the submaxillaris muscle of the frog. 279

CURRY F.E. & FRØKJAER-JENSEN J. Water flow across the walls of single muscle capillaries in the frog, *Rana pipiens*. 293

COLERIDGE H.M., COLERIDGE J.C.G., POORE E.R., ROBERTS A.M. & SCHULTZ H.D. Aortic wall properties and baroreceptor behaviour at normal arterial pressure and in acute hypertensive resetting in dogs. 309

SAITO Yoshitaka & WRIGHT Ernest M. Regulation of bicarbonate transport across the brush border membrane of the bull-frog choroid plexus. 327

HOLLOWAY S.F. & POPPELE R.E. Post-tetanic hyperpolarization evoked by depolarizing pulses in crayfish stretch receptor neurones in tetrodotoxin. 343

BOYETT Mark R. & FEDIDA David Changes in the electrical activity of dog cardiac Purkinje fibres at high heart rates. 361

ANZIL A.P., BIESER A. & WERNIG A. Light and electron microscopic identification of nerve terminal sprouting and retraction in normal adult frog muscle. 393

BIESER A., WERNIG A. & ZUCKER H. Different quantal responses within single frog neuromuscular junctions. 401

HARTMAN David A. & KRIER Jacob Synaptic and antidromic potentials of visceral neurones in ganglia of the lumbar sympathetic chain of the cat. 413

ELLIOTT J.R., HAYDON D.A. & HENDRY B.M. The asymmetrical effects of some ionized *n*-octyl derivatives on the sodium current of the giant axon of *Loligo forbesi*. 429

MARSHALL Janice M. & TANDON H.C. Direct observations of muscle arterioles and venules following contraction of skeletal muscle fibres in the rat. 447

ROBBINS P.A. The ventilatory response of the human respiratory system to sine waves of alveolar carbon dioxide and hypoxia. 461

CUNNINGHAM D.J.C. & ROBBINS P.A. The pattern of breathing in man in response to sine waves of alveolar carbon dioxide and hypoxia. 475

FEDORKO L. & MERRILL E.G. Axonal projections from the rostral expiratory neurones of the Bötzinger complex to medulla and spinal cord in the cat. 487

GOLDMAN Y.E. & SIMMONS R.M. Control of sarcomere length in skinned muscle fibres of *Rana temporaria* during mechanical transients. 497

FERENCZI M.A., GOLDMAN Y.E. & SIMMONS R.M. The dependence of force and shortening velocity on substrate concentration in skinned muscle fibres from *Rana temporaria*. 519

DUNWIDDIE Thomas V. Interactions between the effects of adenosine and calcium on synaptic responses in rat hippocampus *in vitro*. 545

OHMORI Harunori Studies of ionic currents in the isolated vestibular hair cell of the chick. 561

FUJIWARA Motohatsu, HAYASHI Haruki, MURAMATSU Ikunobu & UEDA Naoko Supersensitivity of the rabbit iris sphincter muscle induced by trigeminal denervation: the role of substance P. 583

TRACEY David J. & WALMSLEY Bruce Synaptic input from identified muscle afferents to neurones of the dorsal spinocerebellar tract in the cat. 599

ALLEN D.G., EISNER D.A. & ORCHARD C.H. Factors influencing free intracellular calcium concentration in quiescent ferret ventricular muscle. 615

BREHM P., KULLBERG R. & MOODY-CORBETT F. Properties of non-junctional acetylcholine receptor channels on innervated muscle of *Xenopus laevis*. 631

HODGKIN A.L., MCNAUGHTON P.A., NUNN B.J. & YAU K.-W. Effect of ions on retinal rods from *Bufo marinus*. 649

PROCEEDINGS OF THE PHYSIOLOGICAL SOCIETY

13–14 *January* 1984

Mill Hill Meeting

DEMONSTRATIONS

Clark R.G. & Robinson I.C.A.F. A system for long-term infusions in conscious rats. 2*P*

Davies S.N., Goldsmith G.E. & Hunt M.J. The quantitative study of trigeminal thermal sensing in the rat. 3*P*

Fairhall K.M., Robinson I.C.A.F. & Saermark T. A simple small-scale method for the isolation of posterior pituitary neurosecretory granules. 4*P*

Dash B., Geisow M.J. & Satchell J.H. A flexible microscope system for microinjection and time-lapse video microscopy of tissue cultures. 5*P*

Douglas Robert M. A three-channel computer-controlled digital stimulator. 6*P*

Lindsay R.M. & Raisman G. Rat hippocampal transplants: prelabelling in culture permits later identification of donor cells in host tissue. 7*P*

Anson M., Chung Shin-Ho, Glover Alison C.J. & Johnson Melanie S. The use of white noise to investigate middle-ear dynamics. 8*P*

Ireland G.W. Computer analysis of cell adhesion patterns. 9*P*

Holder Nigel, Jessani P. & Tonge D.A. Correlation of muscle fibre type with motor unit type using Lucifer Yellow in the newt, *Triturus cristatus*. 10*P*

Green R.J., Jordan M.M. & Perkins W.J. Interactive computer colour graphics techniques in biology. 11*P*

Clark R.P. & Goff M.R. Infra-red thermographic measurements of hand-skin temperature recovery following cold stress. 12*P*

COMMUNICATIONS

Clarke J.D.W., Holder Nigel & Tonge D.A. Regeneration of the dorsal columns of the spinal cord in *Rana temporaria* larvae. 13*P*

Allison P. & Benjamin P.R. Specific regeneration of synaptic connexions of a snail giant interneurone after axonal crush. 14*P*

Bliss T.V.P. & Errington M.L. Impaired long-term potentiation in the dentate gyrus of the reeler mutant mouse. 15*P*

Richards C.D. & Strupinski K. The effect of pentobarbitone on the excitatory post-synaptic potentials (e.p.s.p.s) and membrane resistance of neurones in the prepiriform cortex of the guinea-pig. 16*P*

Banks D. & Harris M.C. Convergent excitation from paraventricular nucleus and vagus on neurones in the nucleus of the tractus solitarius in the rat. 17*P*

Dawes E.A., Grant S. & Keating M.J. Visual deprivation extends the 'critical period' for intertectal plasticity in the frog, *Xenopus laevis*. 18*P*

Clarke R.W. & Matthews B. The differential effect of trauma on the digastric reflexes evoked by electrical stimulation of tooth pulp and mechanical stimulation of teeth in the cat. 19*P*

Ashmore J.F. The stiffness of the sensory hair bundle of frog saccular hair cells. 20*P*

Caidan S.J. & Palmer A.R. Spatial auditory receptive fields of guinea-pig superior colliculus neurones. 21*P*

Davies S.N. Sympathetic stimulation causes a frequency-dependent excitation and suppression of thermoreceptive cells in the trigeminal nucleus of the rat. 22*P*

Dickenson A.H. & Goldsmith G.E. Involvement of serotonin in the responses of neurones in rat raphe magnus to noxious peripheral stimuli. 23*P*

Davies J., Johnston S.E., Miller A.J., Quinlan J.E. & Sheardown M. Noradrenaline and clonidine selectively depress responses of cat spinal neurones to noxious peripheral stimuli by an action on α_2-adrenoceptors. 24*P*

Halsey M.J., Rostain J.-C. & Wardley-Smith Bridget Effect of GABA-enhancing drugs on the behavioural response to high ambient pressure in the rat. 25*P*

Hill D.R. Are $GABA_B$ receptors adenylate cyclase linked? 26*P*

Anand H., Collins J.F. & Roberts P.J. New analogues for the investigation of kainic acid receptors in rat cerebellar slices. 27*P*

Salt T.E. & Sillito A.M. The action of somatostatin (SSt) on the response properties of cells in the cat's visual cortex. 28*P*

Jones P.M. & Robinson I.C.A.F. Turnover and release of a neurophysin related intermediate in the guinea-pig. 29*P*
